

ABSTRACT OF THE DISCLOSURE

[0032]

Penants or flags of various sizes and shapes have holders that are designed to fasten the pennants to car antennas, on pencils, or any other desirable flagpole. One version of the pennant holder has self-adjusting flaps that adapt to various sizes and shapes of flagpoles, such as car antennas, for example. Another version of a pennant holder is designed to clip on to and hold a pennant to a small pole, like a pencil or pen.
